Millington Fire Department added 2 new photos.
April 29 at 12:44pm · 🌐

Millington Fire is blessed to have the infrastructure and area for a fire training facility. Over the years numerous fire departments, local and state agencies, and private industry have used the facility.

The facility is going through a much needed upgrade. A new roof is scheduled for this spring, new classroom furniture has been delivered, interior painting, drainage improvements. New training props include a two-story structure with an exposure and new propane fueled props. The Maze Trailer has been moved to the concrete pad. Work was started on replacing the siding but had to be stopped to remove a honeybee hive. Thanks to beekeeper Crystal Hohlt for finding the bees a new home. Future plans call for a new parking lot and a new main entrance off of Astoria.

Most of the work is being done by Millington Fire personnel. We have some talented firefighters who are taking pride in what we have and are working hard to make some much needed improvements.
